### Thrills in Plenty at Cheyenne Rodeo, the "Olympics" of the West

ALTHOUGH the West with the increasing growth of population has ceased to be "wild and woolly," and the days of Kit Carson and Buffalo Bill are little more than reminiscences, to be cherished fondly by the oldest inhabitants, there are still occasional celebrations, colorful and sparkling, full of thrill and excitement, that bring into play the courage, strength and other virile qualities that were so much in evidence in pioneer times.

Such an occasion is the Frontier Days Rodeo in progress this week at Cheyenne, Wyo., which is to have its sequel later in the round-up at Pendleton, Ore.

Some of the most skillful and daring riders, bulldoggers, broncho busters and ropers of the country have entered for the various events, to which additional stimulus is given by valuable trophies, including the coveted Roosevelt Cup, King Kalakaua's Spurs and a trip to Hawaii. Nor are the entries confined to the sterner sex, for there are girl participants, some of whom are presented on this page, whose wonderful riding suffers nothing when compared with that of their male confreres.

Almost incredible are some of the feats performed by the hardy sons and clever daughters of the West. Few of the contests are free from the element of personal danger. The broncho busting resolves itself into a Homeric combat between man and brute. Usually the rider demonstrates the supremacy of mind and brawn combined over matter, but many times the "pinwheel whirls" of a vicious buckner unseat the horseman and cause him to be carried off the field with broken ribs or more serious injuries.

Then there is the wild-horse race, when a score or more of rangy bronchos are turned loose in the field, bare-backed and without a bridle or headpiece. Men try to mount them as they run and change from one horse to another, the first who succeeds in doing so being declared the winner.

The bulldoggers may come next on the program, and then the arena is full of bellows and dust. The rider is supposed to overtake the fast-traveling steer and then drop from his horse, grasp the steer by the horns and throw him. Sometimes a man dives for his steer and rolls over and over, coming to his feet to find the steer glaring at him. Then only a swift run and jump over the fence saves the cowboy from buying a new pair of trousers.

Yes, almost everything can be had at a rodeo except monotony. That is conspicuous by its absence.
